

Stiftelsen Psykosyntes Akademin

awards a diploma as a
**Psychosynthesis
Therapist**

to

Lars Gimstedt

who has successfully completed a

**Three-year In-depth Professional Training
Course in Psychosynthesis**

Psychosynthesis is a broad and unified mode of human development and communication with an integrated system of techniques which can be applied to a wide variety of professions and human activities.
The PSYCHOSYNTHESIS THERAPIST diploma is awarded to those who seek to practice professionally as a Psychosynthesis therapist. Additional outside training may be strongly recommended for those wishing to use Psychosynthesis in certain therapeutic environments.

The course consists of: seminars and discussions; individual and small group work; demonstration of skills, observation, critique, assessment and supervision; reading assignments; written work to clarify theoretical concepts; a final substantial project.
